CELIT Your remote developing team
s e r v i c e s b r o c h u r e

about celit

Celit is born in 1997 being its aim to offer system solutions to small and medium businesses

Since 2001, with the new economical situation imperating in Argentina, we saw new possibilities. New business opportunities arrisen, Celit started offering off shoring development services

mission

Celit aims at becoming your preferred remote software developing team.

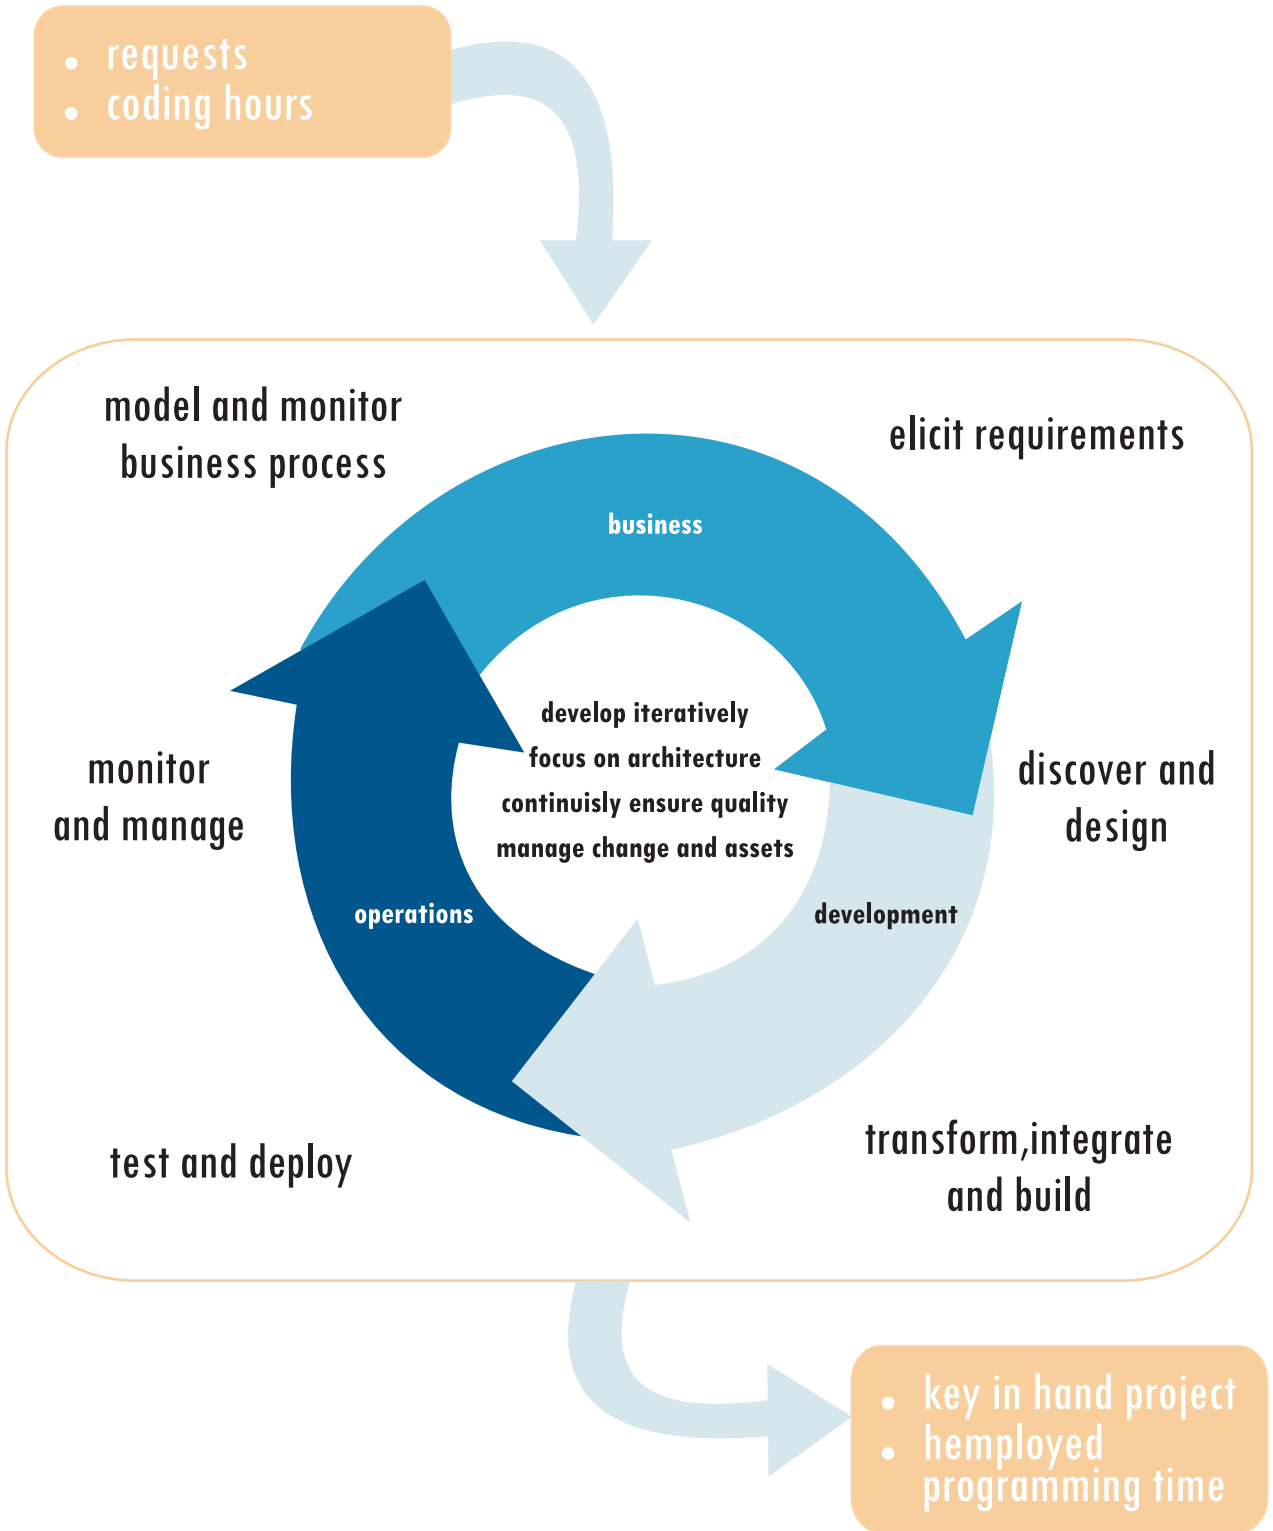

At the present time, we are developing a new platform for teleworking in order to obtain an optimum integration of coders, project managers and clients

values

Decency, professional ethics, responsibility and objectivity are essential values for Celit

We focus in recruiting the most bright young minds. Whith that in purpose, Celit has created is own systems school: it School (www.itschool.com.ar).
